CAREER OBJECTIVE

Dynamic SQA professional with expertise in automation, manual testing, and project management. Skilled in problem-solving and process optimization to enhance efficiency, ensure quality, and drive success. Committed to applying these capabilities in the banking sector, IT industry, reputed corporate organizations, or NGOs to drive continuous improvement and achieve strategic goals

AREA OF EXPERTISE

Software Testing & Quality Assurance | Project Coordination and Management | Automation Testing: Selenium, TestNG, Maven, POM, Java | Performance Testing: JMeter | Operational Efficiency Enhancement | API Testing: Postman, Newman | Project Management: Jira, Agile, Scrum | Programming Languages: Java, JavaScript, C | Databases: MySQL | Version Control: Git, GitHub | Operational Efficiency Improvement | Frameworks: Bootstrap | IDEs: Eclipse, Visual Studio Code | Adaptability in Banking, IT, Corporate, and NGO Sectors

INTERNSHIP EXPERIENCE

Intern – Software Development Department

Creative Soft Technology Ltd.

December 2023 – March 2024

Key Responsibilities

- Gained practical experience by assisting in software development projects, contributing to coding, debugging, and software testing to ensure optimal functionality and project success.
- Actively engaged in team discussions, shared insights, collaborated on project planning, and contributed to the successful execution and implementation of assigned tasks and deliverables.
- Demonstrated excellent problem-solving skills by swiftly addressing challenges, adapting to new situations, and effectively applying solutions in a fast-paced, ever-evolving environment, ensuring continuous learning and efficient problem resolution under pressure.
- Strengthened interpersonal and communication skills through effective collaboration with team members, contributing to project success and fostering a positive, productive work environment.

Key Achievements

- Consistently received positive feedback from supervisors for demonstrating punctuality, dedication to tasks, diligence, adaptability, and a proactive approach throughout the internship.
- Completed a comprehensive three-month internship in the Software Development Department, gaining valuable hands-on experience and enhancing technical, analytical, and teamwork skills.

PROJECT EXPERIENCE

Manual Testing – Shwapno.com

- Designed, executed, and reviewed test cases to validate the functionality, usability, and performance of the Shwapno.com e-commerce platform.
- Conducted root cause analysis and effectively reported software bugs using test management tools, improving system stability and user experience.
- Applied Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC) methodologies to enhance software reliability and compliance with industry standards.

ACADEMIC QUALIFICATION

- **Bachelor of Science in Computer Science & Engineering**
Daffodil International University | **CGPA:** 3.13/4.00 **2024**
- **Diploma in Computer Engineering**
Brahmanbaria Polytechnic Institute | **CGPA:** 3.13/4.00 **2020**

PROFESSIONAL TRAINING

Software Testing and Quality Assurance (SQA) – Skill Jobs

Key Areas of Training

- **Manual Testing:** Gained expertise in SQA processes, SDLC, STLC, requirement analysis, test planning, test case design, execution, and reporting to ensure software quality and functionality.
- **Automation Testing:** Gained hands-on experience with Selenium, TestNG, Maven Repository, and Page Object Model (POM), enhancing efficiency in automated testing.
- **API Testing:** Gained proficiency in API testing by using Postman and Newman for automating the validation, execution, and testing of APIs, ensuring robust performance and functionality.
- **Performance Testing:** Learned to conduct load and stress testing of web applications using Apache JMeter to assess system performance under various conditions.
- **Project Management:** Leveraged Jira for bug tracking, task management, and Agile project execution, improving team collaboration and ensuring efficient project delivery and progress monitoring.
- **Programming for Automation:** Strengthened Java fundamentals to write and debug automation test scripts, enhancing software testing and troubleshooting capabilities.

Key Achievements

- Created and executed detailed test cases and automated test scripts, enhancing quality assurance processes and ensuring more efficient and reliable software testing outcomes.
- Applied Agile and Scrum methodologies to real-world projects, improving software development efficiency, fostering team collaboration, and ensuring timely, iterative project completion.

Cyber Security

Arena web security | 4 Month

Key Learning

- Learned to implement strategies and tools to protect networks from unauthorized access, cyberattacks, and data breaches, ensuring overall network security and integrity.
- Acquired skills to detect, evaluate, and neutralize security threats by using advanced tools and techniques, ensuring robust protection against potential cyber risks.
- Gained expertise in protecting sensitive data through encryption methods, ensuring confidentiality, integrity, and secure storage, while preventing unauthorized access or manipulation.

ADDITIONAL INFORMATION

- **Bengali(Native) | English(Professional Working Proficient)**
- **Date of Birth:** 17/10/2000
- **Nationality:** Bangladeshi
- **Blood Group:** B+
- **National Id Number:** 5109839604
- **Permanent Address:** vill-Chongrachari mukh, P/O: Mohalchari-4430 ,Police Station- Mohalchari, District: Khagrachari.
